

Promoting Positive Behaviour to Support Effective Learning

Overview

The workshop will cover the following main areas:

- Practical strategies to ensure successful behaviour management
- Using a model of human behaviour to promote more effective communication
- Sharing Good Practice

By the end of the workshop participants should:

- Understand how to promote and encourage positive behaviour which supports the learning of students
- Have acquired and practised effective skills to deal with difficult situations

The course will combine presentations with practical sessions, and will aim to introduce some flexibility in order to address key issues for course participants

Testimonials from Previous Delegates:

"All interesting but I especially enjoyed the skills practice and hearing from the experiences of other people on the course..."

"Content and delivery were superb. I could have listened all day."

"I know I now have a 'box of tricks' to help me deal with challenging classes and individuals. I feel 100% more confident and positive."

"The tutor was brilliant and her experience in teaching allowed her to fully empathise and understand our own views."
